Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Michael John Hall	
Address	OAKLANDS LYNWICK STREET RUDGWICK, HORSHAM	
Type of Comment	Objection	
Comments	I object to this proposal for a number of reasons. In the first place there is no need for more brickmaking clay as WSCC already have sufficient reserves and without the mineral site there no justification for a waste site. In any case this tranquil site is quite unsuitable for a waste site and its construction, if allowed, would have a very detrimental effect on the environment and amenities enjoyed by many local residents. If this development were permitted there would be increased HGV traffic which would have a severe impact on villages in the area. In addition, the proposed site access arrangements are not safe and will pose a severe risk to other road users and pedestrians. Also there will be highway safety issues with the roads relatively narrow in places and a very nasty junction where the road from Loxwood joins the A281 at Bucks Green. The proposed development will have a major impact on local wildlife both in respect of habitat and species such as Bats and Badgers.
