| Comments | <p>I object to this application. There is no demand for additional brickmaking clay as WSCC have more than 25 years of reserves and the national and local level of clay requirements are met.</p> <p>This application includes a 15,000 sq ft building set in beautiful woodlands and would mean the closure of footpath 792-1. The application states 'temporary' but this would actually be for 33 years which would mean it would be lost to walkers and animals forever.</p> <p>There would be considerable danger to the public with the increase in HGV traffic along narrow country roads, together with much deterioration to the road surfaces from at least 42 truck movements per day which would inevitably lead to a greater number than this.</p> <p>Should this application be approved it would devastate this area, with its beautiful countryside and pretty villages, much wildlife, all of which would be affected detrimentally in the future.</p> <p>PLEASE DO NOT LET THIS GO AHEAD.</p> |
