Comments	<input type="text" value="I strongly object to this application. This is an area with ancient woodland as shown by the bluebells that grow there. It is a peaceful area with a footpath that borders the site where Nightingale's sing in the spring, which is used and enjoyed by many. Horse riders also enjoy the tranquil ride along the bridleway.. The disruption to wildlife would be fatal caused by the disturbance, noise and light. The local roads are unfit for heavy lorries as access will be from a minor narrow road causing hazards to local traffic including the many cyclists and walkers that use this road. The site is totally unsuitable for the impact it would have on the local community, trees, plants and wildlife. It would not be environmentally friendly, adding to pollution and carbon emissions since the site is not near any brickworks."/>
