Comments	volume of traffic create they are too narrow fo The planned route to t The loss of ancient wo unsuitable location for	Dear Sir/Madam, I am writing to abject to application number WSCC/030/21 on the grounds that the access and volume of traffic created by the proposed development would make surrounding roads dangerous, they are too narrow for large lorry movement. The planned route to the site crosses many public footpaths and tracks which are in frequent use. The loss of ancient woodland cannot bee underestimated, this land will never recover. This is an unsuitable location for waste disposal and cause unwanted pollution to this rural area National Policy states that waste sites should be sited in built -up areas or brownfield sites.
