

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Nicola Martin-Jenkins"/>
Address	<input type="text" value="ARUN COTTAGE, LOXWOOD ROAD, LOXWOOD ROAD, HORSHAM, RH12 3BT"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I have tried to see the benefits of this application but apart from the clear financial gain for the applicant there is nothing in it for anyone else. In addition the community and area will suffer. The increase in traffic especially trucks on the roads will cause pollution Of almost every sort. Noise, dust , fumes, litter are the few off the top of my head. Why when the world is trying to rewild is a massive site such as this being built where it is? There isn't the correct infrastructure in the area to deal with this development. There also doesn't appear to be the need for it. If there is a need for it why there? By agreeing to this West Sussex would be going against Government Policy on woodlands. In a 2013 government policy statement the introduction states:- "The Independent Panel on Forestry issued a clear challenge to Government and the nation as a whole last year. "As a society, we have lost sight of the value of trees and woodlands," the Bishop of Liverpool concluded. We need to "grow a new appreciation of woods and forests". The Government shares this view and has embraced this challenge. Over the past six months we have listened to businesses, interest groups and the public about what we can do, as a nation, to value our woodlands more. In this statement we respond to the Panel's report and outline how we will protect our trees, woods and forests and improve our woodlands" Any suggestion that the woodlands would not be affected here is disingenuous and seems to be a way of circumnavigating policies that are there for good reasons. If West Sussex agree to this it will show that they are not listening. Please don't allow this application to succeed. Thank you</p>
