Comments	<input type="text" value="I strongly object to this proposal. I drive on this road every day and there is no way that the road can support regular transportation of large vehicles, it will not be safe due to the lack of road width . Damage will be caused to the surface causing further risk to lives on a road that becomes extremely icy in the winter and already has pot holes that need to be avoided. The area is of natural beauty which will be destroyed in an area that already is being developed for housing. The destruction of wild life habitats is not acceptable."/>
