Comments	<input type="text" value="I am objecting to this application for a variety of reasons: it's unnecessary from a raw materials point of view - there's plenty of supply of clay in other sites, it's a greenfield location - surely this should be protected? It's only suitable for a waste tip IF clay is extracted (see point 1), the lanes around here are totally unsuitable for HGV's - they're in terrible repair now and I can't imagine what multitudes of HGV's would do to them. Lastly and probably most importantly, the local population is very much against the scheme."/>
