

Comment for planning application WSCC/030/21

Application number	WSCC/030/21
Name	Marie Clifford-McBrinn
Address	NICHOLSFIELD, 36, NICHOLSFIELD, BILLINGSHURST, RH14 0SR
Type of Comment	Objection
Comments	<p>I strongly object to the clay pits being allowed to go ahead in our quiet village location. Firstly as a mother my sons pre-school will often take the children to this area for their weekly Forestry walks. This area will be lost for 33years and thereafter will not be returned to it's natural beauty that so many generations of our childrens children will lose out on and in the immediate time access to a walkable location from our pre-school. This would be a shame to lose such beautiful landscaped area for all our wildlife and walkers for a claypit that there is no actual demand as the national and local are being met. Also with this proposed site taking on construction waste - which this should ONLY be only for built up areas and not a RURAL location that will destroy 15,000 sq ft of our woodlands! The HGVs would not only be a massive source of noise pollution aswell as the excavating from this area. Our Pre-school and Primary School are only about a mile from this proposed site which would cause unnecessary disturbances to the teachers, trying to teach, as these sounds will travels and cause disruption in what is currently a really quiet village! I hope you see that this is not wanted here and will destroy our village and our way of life. We all chose to live in an area that is quiet surrounded by natural beauty that can be enjoyed by all. Which with the recent Global Pandemic it was great being able to get in the fresh air and enjoy the tranquillity that this area offers. You will be doing us all a disservice if you allow this to happen as well as destroying our wildlife's homes, in particular the Barbastelle Bat which is a rare specie in Sussex and is a International European Protected Species. As you can see this does not conform with our either our Loxwood Neighbourhood Plan or that of the Chichester District Local Plan. This application does not enhance, protect or compliment our local natural environment and also provides no benefits to our community and the rural character that we currently have here. Please, please, please do not allow this to go ahead and ruin our way of life!</p>
