

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Andrew Speers"/>
Address	<input type="text" value="SYDNEY WOOD COTTAGE, ROSEMARY LANE, ROSEMARY LANE, CRANLEIGH, GU6 8EZ"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this proposal because 1, There is already sufficient supply/reserves of clay for bricks - something that Waverly themselves accept</p> <p>2 - the local roads and infrastructure are already in very poor condition and can barely cope with the existing traffic, the addition of many thousands of lorry's will Devi state the environment and make road usage near on impossible. Let alone to toxic and rubber waste (tyres) that will pollute and kill all adjacent wildlife.</p> <p>3 - without the need for additional brick clay there is not a single reason to use such a precious site.</p> <p>4 - the site is s greenfield site and legislation/guidance states that this should not be used for waste</p> <p>5 - loss of such an important landscape and amenity for the local community. This will create a huge gap in the beautiful green belt which will damage further the wildlife and insect life and diversity that is critical to sustain all things.</p> <p>I strongly object.</p>
