

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Neil Walker"/>
Address	<input type="text" value="PONDFIELD ROAD, 37, PONDFIELD ROAD, HORSHAM, RH12 3EN"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I wish to formally record my objection to the proposed Loxwood Clay Pits development.</p> <p>I urge WSCC to do the right thing and reject these plans which would have a detrimental impact of Loxwood and the local environment without any corresponding benefit for those impacted.</p> <p>Please do the right thing and reject this money grabbing destructive proposal.</p> <p>Of significant concern is that the local roads and infrastructure are simply not suitable for the high volume of HGV's that will be necessary to carry out the proposed plans. The size of the vehicles and the nature of the material being carried will have a detrimental impact on Loxwood and the surrounding villages - including Rudgwick where I am resident. Any attempt to make the proposed site more "green" would simply increase the volume of traffic.</p> <p>There is currently no demand for brick making clay in addition to the reserves held by WSCC and I believe that this aspect of the proposal is inappropriate and unnecessary.</p> <p>There is no justification for a waste site at this location - or indeed any location as the 50% target is well below accepted industry norms.</p> <p>This is not a built-up area or a brownfield site but instead a green field site of natural beauty - accepting this plan would be contrary to national policy.</p> <p>Pollution from noise, dust and dirt would be inevitable with significant impact on the environment - near and far.</p> <p>The plan runs contrary to the agreed plans of Loxwood Neighbourhood and Chichester District Local. Surely the responsible action would be to support these plans.</p>
