Objection

I object most strongly to the proposed application.

The area is a lovely, peaceful place, used by my family many times over the last 40 years. It is home to an abundant local wildlife and habitat to many species, some already threatened. Many of the trees are historic and the anticipated felling of them would be sacrilege.

The increase of traffic along the Loxwood Road would be dangerous, not least because school children have to use the road to access their school buses. Any increase in traffic, especially of H.G.V's, would be a disaster - an accident waiting to happen, not only for the schoolchildren but for all road users. The disruption caused by the construction of the site at the outset, and the ongoing daily movements of the vehicles over the expected 30 years, accompanied by the disturbance (i.e. noise, fumes, pollution) will be detrimental to the well-being and mental health of every person living within the nearby vicinity.
