Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Alison Sullivan	
Address	OUTSPAN, GUILDFORD ROAD, GUILDFORD ROAD, BILLINGSHURST, RH14 0SE	
Type of Comment	Objection	
Comments	I am completely against this application it is totally unsuitable for the area and against the local Loxwood neighbourhood plan and the district plan. To allow a major 15,000 sq ft building to be built in pristine woods for waste recycling and the extraction of clay when there is already suitable reserves and waste recycling facilities else where should be reason enough to deny this development . However it is the large scale movement of lorries both on local inappropriate roads but also through woodland where there are public rights of way with people walking is dangerous. The noise and light pollution will be incessant for 6 days a week. Public rights of way are too important to allow a temporary closure of such for 33 years and is completely unacceptable. This development is all about profit at the expense of the local environment and community and I object strongly to it.
