Objection

I wish to strongly object to the proposal to use Pallinghurst Woods to create a clay pit and recycling plant. I do not feel this proposal is suitable . The woods are in a beautiful area surrounded by country lanes and private dwellings some of which are listed buildings. I enjoy the woods as an area to walk and jog where I can be safe from the roads and enjoy the peace and tranquility of nature. I find it very good for my mental health to spend time there. The trees and hedgerows are a haven for birds and wildlife and provide welcome shade to walkers during hot weather. To destroy these trees and hedgerows would impact on so much wildlife and take away their natural habitat. I often see deer as well as an abundance of wild birds and butterflies on my walks. I am also a keen cyclist and ride a motorbike in the surrounding country lanes and would fear the number of HGV's that would need access to the proposed site. I would be be concerned for my safety as a road user on two wheels. The noise ,dust, odour and fumes created from such a site would be harmful for the well being of local residents as well as visitors . I would be heartbroken if this proposal was to go ahead as I really feel that it would have a devastating effect on this beautiful area of West Sussex and create a blot on the landscape.
