

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Jason Attfield"/>
Address	<input type="text" value="HALL HURST CLOSE, 2, HALL HURST CLOSE, BILLINGSHURST, RH14 0BE"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="Totally against this application. The road between Loxwood and Bucks Green would not be able/suitable to cope with the extra HGV activity, this road is already in a very poor state potholes, damaged edges and not at all suitable for HGV traffic, having on a large number of occasions ending up on the grass verge to negotiate an HGV. Also why permanently damage lovely woodlands to extract clay when the whole area is predominantly clay, with vast areas of fields unused, is this purely down to the fact this valuable woodland has no value commercially despite it value to the People that use it to escape the hectic lives we live these days. This woodland will not be replaceable and gone forever if this application is granted. Are we not in these times meant to do all we can to save these important and valuable pieces of land for now and the future, or just continually destroy them forever."/>
