

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="David Percy"/>
Address	<input type="text" value="LINDENE GATE, GUILDFORD ROAD, GUILDFORD ROAD, BILLINGSHURST, RH14 0SE"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>This application is unsuitable on a number of grounds:</p> <p>Waste Disposal Site</p> <ul style="list-style-type: none">* this access and egress to the site and its general location make this entirely unsuitable for the purpose of waste disposal* there are several other sites for waste disposal in West Sussex, making this location entirely redundant* the habitats of many animals would be impacted by the location of the waste site <p>Access and Egress</p> <ul style="list-style-type: none">* it is over 3km from the A281 to the entry to the proposed access point and a further 1.3km along narrow woodland tracks. This distance is far too much along narrow lanes which will not allow lorries to pass one another and is over 4.5km from the lorry route network <p>Environment</p> <ul style="list-style-type: none">* this is an area of pristine woodland that is remote and tranquil* noise and light pollution would have a serious impact* the area is shared with established farming and would impact these local businesses* there is no enhancement to the local area from this development <p>Traffic</p> <ul style="list-style-type: none">* increased HGV movements would impact local road users* a significant increase (300%) of HGV movements would be a danger to other road users and pedestrians* loss of access for parking and local recreation at the point of access and egress* noise and mud contamination from HGVs leading to more environmental and safety issues <p>This proposal is a huge detriment to the local area and I would urge you to reject the application. There are many other ways for the clay to be extracted and waste to be disposed that do not impact this lovely woodland. Please do the right thing for the local area and reject this proposal.</p> <p>Thank you, David Percy</p>
