Comments	<input type="text" value="This is a beautiful woodland area enjoyed by many people.How can you allow this planning application to go ahead which would cause more pollution, more noise and so much traffic on a road that is not made for large lorries. I use this road frequently and can travel from Loxwood to Rudgwick behind the occasional lorry. What will happen when there are 40 a day? I thought we were all meant to help towards climate change,this is certainly a backward step"/>
