## Comment for planning application WSCC/030/21

Application number	WSCC/030/21
Name	Janet Riddiford
Address	59 Gosden Hill Road Burn

Type of Comment Comments 59 Gosden Hill Road Burpham GU4 7JB

Objection

Dear Mr Bartlett

I would like to object to this planning application.

I often spend week ends with my family in Tismans Common and I have always been struck by the beauty and tranquility of the woods, which are a only short walk along a footpath from their house.

I was saddened to hear about this application and I cannot understand why such a natural and ancient greenfield site might be thought in any way appropriate for an industrial operation like this.

Leaving aside the clear unsuitability of the proposed use for the area, and the inevitable damage it would do to the natural environment (ancient and veteran trees, threatened bat species, interconnected ecosystems), I believe the addition of 40 or more lorry movements a day along local roads and woodland tracks and across footpaths and bridleways would be little short of suicidal. Any of us who have driven and walked in the area will know how dangerous even limited lorry traffic can be. The infrastructure is not designed for and cannot take this kind of traffic and any increase would bring with it very real safety risks.

I have rarely seen such an inappropriate planning application and I sincerely hope you and your colleagues will reject it.
