Objection

I strongly object to this planning application. I have family that live in Loxwood and visit them regularly. When we visit we always spend time walking the in beautiful woods that will be destroyed with this application. The most significant impact will be the noise and pollution, and the disruption to our access to public rights of way. There would be a massive loss of wildlife, including insects, as the trees and natural land are destroyed. This represents an unacceptable impact on a public amenity and enjoyment of this rural tranquil area as the development area is surrounded on all sides by close proximity of public rights of way which are in regular use. The high level of HGV traffic represents an unacceptable impact on public safety and amenity along the length of the route. The proposed development would result in unacceptable conflicts/impacts with adjacent and established farming activity. I also understand that there is no actual need for additional clay resources so the main argument for destroying an area of natural beauty is plainly wrong and not one of need but of profit.
