## Comment for planning application WSCC/030/21

Application number	WSCC/030/21	
Name	Ann Dixon	
Address	139 Charlton Road SE7 7EZ	
Type of Comment	Objection	
Comments	There is no demand for more clay This is a greenfield site There would be ecological damage in the removal of mature trees in which bats, including four threatened species, nest, in the proximity of the proposed development to a Badger's sett and the destruction of irreplaceable ancient woodland The vehicles using the site will be a danger to pedestrians The vehicles using the site will increase air pollution, noise and dust for the nearby school The proposed development does not conform with either the Loxwood Neighbourhood or the Chichester District Local Plan for development in a rural area The location is completely unsuitable to this peaceful area and the redesign is inappropriate for the environment .
