To Whom it May Concern. I strongly object to the development being discussed for within Pallingshurst Woods. We have recently moved to the area with a big draw being the surrounding area being rural, quiet and idyllic and with less than traffic than our previous home. The development proposed will have a huge impact on traffic increasing it overall but also the noise disturbance is also brings. There are a huge number of walkers in the area and I don't believe this has been thought through in terms of safety with this associated traffic. We live within minutes of Guildford Road near Alfold Bars/Loxwood and despite no footpaths there are hundreds of walkers a day on the main road. The Loxwood Road/A281 junction is also already a dangerous junction and also one that gets very busy with existing traffic already.
