Comments	<input type="text" value="I am objecting to this proposal on the grounds of loss of amenities, one of the biggest assets is being able to use the public footpaths and bridleways safely and enjoying the rural lifestyle which is a huge part of our local community. The country roads in this area are completely unsuitable for the weight and size of HGV's proposed. In places the roads are physically not wide enough to support a car and lorry from either directions, this increased traffic could damage older properties in the area. At the moment it is a pollution free zone and supports a wealth of habitats which would be destroyed."/>
