

# Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Davi Hallt"/>
Address	<input type="text" value="THORNHURST, MARRINGDEAN ROAD, MARRINGDEAN ROAD, BILLINGSHURST, RH14 9HD"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>My family owned Songhurst Farm and still own Old Songhurst farm which is adjacent to Pallinghurst woods where the proposed recycling plant and clay pit application is since 1939. I grew up on the farm, walking the woods and enjoying the area. As a family we have introduced wildlife to live alongside the natural wildlife that has been there for years. which all are now thriving. How can this recycling plant be of any help to the environment. There are countless streams that run through the woodland and to alter or move any water course will damage the ecology of the area. My Grandparents retired on the Farm, My parents have retired on the farm, myself and my family are planning on retiring on Old Songhurst Farm. How is this going to be a pleasant experience with the noise dust, fumes, additional traffic present. My family has spent decades building and looking after the land next to Pallinghurst woods increasing the value 100 fold. If the proposed development goes ahead the value will in my opinion be halved.</p> <p>David Hallt Thornhurst Marringdean Road Billingshurst RH14 9HD</p>
