

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Charlotte Buckingham"/>
Address	<input type="text" value="4 WOODLEA COTTAGES, GUILDFORD ROAD, GUILDFORD ROAD, HORSHAM, RH12 3PW"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I object to this proposal due to the following reasons:</p> <ul style="list-style-type: none">- we need to be protecting the wildlife and environment, yet this proposal is detrimental to the local wildlife in the woods and also the additional HGV traffic that will be on the roads due to this application. I am also concerned at the nature of the waste that will be deposited at this location.- There are many people who use these roads for recreational purposes such as riding cycling and walking. The additional HGV traffic poses a significant threat to people as there will probably be accidents caused by these large vehicles.- We use the public layby for parking to walk our dogs at this location to lose this access and also to lose the footpath proposed will be dreadful. We need to protect our green spaces.- there are no benefits of this proposal to the local community therefore should not go ahead.- it has been found that there is no demand for additional clay therefore this proposal shouldn't be considered- The additional traffic will significantly increase the pollution noise and traffic levels within the area which is just unacceptable.
