Objection

The amount of traffic using these roads - especially an enormous number of heavy dump trucks working on the myriad housing developments already approved for our area - means that it is ludicrous to consider allowing a project which destroys a very special part of our local woodland and adding hundreds more heavy trucks onto our crowded little roads. We drive along this narrow road every day taking our 3 children to and from school. The road is already busy and dangerous, with drivers - just like us - making daily trips to ferry their kids to and from school, sharing the road with school busses, farm machinery as well as cyclists and dog walkers. There is no footpath for almost all of the road.

There are plans in the pipeline to all but destroy Loxwood village with a massive number of extra homes to be built.

The B2133 which runs past out house is one of the most dangerous roads in West Sussex. Huge trucks fly down Vicarage Hill, ignoring the 30 MPH sign outside out house, and not even braking until the Church at the bottom of the hill. The speed limit is NEVER policed. If the 30 MPH limit started at Skiff Lane that might slow them a little.

Either way, adding hundreds more huge trucks to the mix, forcing them through the heart of Loxwood Village which is only one lane wide, would be disastrous.

Please don't allow this mad proposal. And please consider slowing the existing massive, high-speed traffic flow on the B2133 through our Village. I can't walk my 3 little girls to church on Sunday on the footpath because the traffic comes through too fast.
