Comments	<input type="text" value="Our village has already been almost ruined by increasing traffic. The one wonderful thing for us is that at least we still have the surrounding woodland to enjoy. I take my children for walks through those woods often. So many of our dog-walker friends do the same. It would be a crying shame if that was destroyed too, when it's so difficult and dangerous to live here with the high speed, worsening traffic...much of it heavy trucks."/>
