Type of Comment	Objection
Comments	<p>I am writing to request that you reject this application.</p> <p>Lockdown has shown us the need to preserve our natural resources. I regularly walk in these woods. Their peace and tranquillity are restorative to mental and physical health of district residents, and should be preserved.</p> <p>I am deeply concerned at not only the impact to residents of the loss of this natural resource, but also to the increased HGV traffic will create noise and pollution. Furthermore, I am concerned about the safety on these narrow roads of HGVs passing, and entering into the A281 at the tricky Bucks Green junction</p> <p>It is important that we make decisions based on accurate facts. My research has shown that we do not need to create more clay bricks. The British Merchant Federations' website _____ states that "There are more than sufficient stocks of bricks to meet most needs. But this does not stop ill-informed comment by journalists, researchers or politicians who say there is a shortage."</p> <p>Please can you consider the residents of this quiet village and reject this proposal.</p>
