Comments	<p>Hi, I am so glad I have an opportunity to object to this most devastating application. Please Please do not allow this to come to fruition it would be truly devastating.</p> <p>The area up for consideration is such a beautiful rural spot. Full of flora and fauna, which would be hugely impacted by this totally unnecessary development.</p> <p>For the residents of the area the impact would be immeasurable, first and foremost the value of their property would decline with the amount of huge vehicles passing through, also there is the factor of noise, however you gauge it, it would impact people, also the total erosion of the roads that are used by these unforgiving vehicles, not to mention the cost of maintaining the repairing after the constantly destruction, it would be immense, the example I can give you is Wildwood Rd, Cranleigh, huge potholes and degradation of the verges is constantly evident, when vehicles are used on roads that are not built to support such traffic.</p> <p>To be able to walk around this amazing area would be so sorely missed and at this point in time we are all becoming far more connected to our beautiful surroundings. For something that has remained constant for so long undisturbed, and enjoyed by so many. Please don't be the instrument that allows that to be destroyed.</p>
