Comments	<p>I cannot believe that in 2021 a local council is even considering granting planning permission that destroys the natural habitat. What has happened, why are we not protecting the environment. The area is a sanctuary for birds, mammals and insects. I believe it is outright destruction of green belt purely for profit. Stop it before it can cause real damage to the entire local area. Increased commercial traffic will cause more road traffic accidents. It will increase congestion. Dust, dirt and noise will affect local houses and an area of peace and tranquility will be lost. Stop it NOW.</p>
