Comments	<p>I enjoy walking in the woods with my 3 dogs and with the noise that will be created and the irreversible damage to the woodland and habitat will mean that it will be changed for the worse forever.</p> <p>Clay pits should only be put on brown field sites or built up areas and this area is a green field site so there is no reason why this application should be approved.</p> <p>The application proposes the 'temporary' closure of a footpath that I walk my dogs along. This 'temporary' closure will be for 33 years. Long outliving my dogs lives and my life. This is not 'temporary' and will cause great inconvenience to all users.</p> <p>Light pollution will be created to the area which currently there is none as its ancient woodland. This will have a terrible detrimental effect to the area.</p> <p>For all the reasons above and more, it this should be rejected.</p>
