Comments	<input type="text" value="The increase of having traffic will have a severe impact on the Loxwood Road. The traffic on this road is already at its maximum capacity and would cause a severe safety risk to users of Loxwood Road. The road is also very narrow in certain places, especially near the Alfold shop and post office. The development and traffic will have a major impact on the environment, especially noise and dust pollution. I do not think this location is suitable for this development and I strongly object to this proposal."/>
