

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Lena Lenz"/>
Address	<input type="text" value="6 Albion Cottages Church Road, Cookham Dean SL6 9PE United Kingdom"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>I, Lena Lenz, object to this proposal.</p> <p>It is such a quiet area in which people try to find tranquility - going for hikes, walking their dogs and enjoy the chirping of birds. If this construction goes ahead, there would be a drastic increase in noise and air pollution from the construction site and from the cars going in and out of the woods.</p> <p>As a consequence, this would take away any enjoyment for any locals and hikers from faraway in going to these woods. People would rather hike somewhere else if it is noisy and if trees are cut down. This would not only scare away any tourists, but also threatened species such as the Barbastelle Bat.</p> <p>On top of that, there is absolutely no reason to build this clay quarry in the first place, as the WSCC have at least a 25 year clay reserve. Claiming anything other than that is factually incorrect.</p> <p>Moreover, the construction materials recycling facility would cause a bad smell that again scares away any wildlife and visitors.</p> <p>In addition, waste sites should be constructed in built-up areas or brownfield sites - not in a greenfield site such as this.</p> <p>Due to all of the reasons mentioned above I object to the proposal of building a clay quarry and construction materials recycling facility.</p> <p>Thank you for your time, Lena Lenz</p>
