

Comment for planning application WSCC/030/21

Application number	<input type="text" value="WSCC/030/21"/>
Name	<input type="text" value="Karen Roles"/>
Address	<input type="text" value="1 PALLINGHURST FARM COTTAGES, GUILDFORD ROAD, GUILDFORD ROAD, HORSHAM, RH12 3BQ"/>
Type of Comment	<input type="text" value="Objection"/>
Comments	<p>Our understanding is that the justification for the brick making clay is tenuous as there is no demand for additional clay given that the national and local clay requirements have already been met.</p> <p>This proposed development will ruin the local environment as well as having a significant impact on traffic in what are currently very quiet villages.</p> <p>We live in an elevated position relatively close to the site and I can be concerned that the dust and pollutants will cause considerable worsening of my asthma. I am currently on the clinically vulnerable list and often walk along the footpath at the proposed site for exercise purposes as the trees help stabilise my breathing.</p> <p>The closure of the footpath would have a major inconvenience as it forms part of our round trip dog walk which we do several times a week.</p> <p>There is no justification for destroying these ancient woodlands above and beyond greed and we will strongly object to this happening.</p>
