Comments	<p>Objection to this application is essential. Having lived in Rudgwick for over 30 years and travelled these roads and used these areas of nature throughout those many years there is no doubt that this development would create unacceptable dangers for everyone who need to use these roads and enjoy the countryside. There are more suitable sites for clay extraction if we need more clay but as building needs are changing that is unlikely. We definitely don't need another recycling and rubbish landfill site in a location miles from any major urban area or road network.</p>
