I object strongly to the above. Nothing but the most vital necessity should be allowed to destroy this woodland - & this proposal is NOT it.

The negative impact on the environment (& villages of Loxwood & Rudgwick) in general - & on all the wildlife in particular - cannot be over-stated.

As regards traffic - the Loxwood Road is NOT equipped to carry the estimated daily number of lorries. Investment would be essential - in widening the road & in safety measures (especially between the Chapel in Tismans Common & The Mucky Duck Pub - which sees cyclists, runners & pedestrians - but has no pavement).

The Council should have - & indeed definitely DOES have - much more important things to spend its money on.
