Type of Comment	Objection
Comments	I do not support this due to the severe impact on the local environment and wildlife. It could damage habitats for wildlife especially bats. It will cause noise pollution. It will cause the footpath to be shut

habitats for wildlife especially bats. It will cause noise pollution. It will cause the footpath to be shut which will prevent locals being able to use the area for walks and tranquility. There will be increased number of large vehicles on our local country roads which already are damaged and narrow. The increased vehicles will pollute the local air. Please do not use this beautiful area.
