

W5CC/030/21

Dear Sirs,

I strongly object to the proposed planning application of the Ioxwood Clay-pits. As a long standing local Resident & walker of Pephurst woods, the loss of the ancient woodland & parking is disastrous for the local wildlife, the barbastelle bat, which is rare & protected, also the badger setts.

Also the noise & felling of mature trees adds to the increase of net carbon emissions. It is a Greenfield area, & I thought everyone is encouraged to plant more trees.

Ioxwood is a small village, as is Bucks Green a small hamlet. The roads are

naturally narrow lanes & cannot
cope with such movement of these
tippers every 15 minutes.

yours faithfully
