

W5CC/030/21

I would like to object to the Loxwood Clay-pits planning application, because the Loxwood Road is already in very poor condition. But with 8 wheel tippers Gross 30 tonnes using it 42 times a week it will deteriorate quickly.

If the trucks are turning right at the B.M.W Garage they will be half way across the road as it narrows at that point, and if they turn left where the 2 buses turn they will use up the entire road, not allowing cars to turn up the Loxwood Road at all.

The other problem is the speed most traffic including HGV's drive through Bucks Green

it is anything up to 50 mph or more  
including trucks. Not helped by the  
fact that due to a complete lack  
of policing, including Radar traps  
they are very unlikely to get caught.

Yours faithfully
