---

[REDACTED]

My objection to planning application WSCC/030/21 is as follows.

I have enjoyed walking in Pallinghurst Woods since 1976, when we moved to this area, I am horrified at the thought of the daily movement of 42 HGV's which together with the noise from the pit site itself will ruin the peace and tranquility of the woods. Should a waste site be allowed in such a greenfield location?

I have concerns about the 5-day a week movement of HGV's along the country road leading to A281 at Bucks Green; this road is quite unsuitable for continual use of this nature.

Should this project get planning permission? **I SAY NO**

Sincerely [REDACTED]
