Subject: Objection: Planning Application Number: WSCC/030/21
Date: 30 August 2021 09:11:43

Hello,

I am writing to object to planning application WSCC/030/21 relating to Loxwood claypit and recycling plant on the following grounds:

- Unsuitability of the roads around the site for the intended purpose. The roads in this area are already in poor condition and they are poorly maintained. Use as described will cause further deterioration and will add to overburdening of the local road network which is facing excessive demand from other planned developments in the locale. This will result in dangerous conditions for pedestrians, cyclists, school transportation and other road users throughout the day.
- Damage to woodland habitats and loss of amenity to local land users. This will destroy wildlife habitats and it will cause irreversible damage to recreational facilities that are used by local people
- Air pollution. The nature of the vehicle movements will generate pollution that will be damaging to the health of local residents.
- Noise pollution. The vehicle movements that will occur as a consequence of allowing this site will cause noise pollution throughout the day that will disrupt agriculture and many other elements of rural life. This will have a damaging impact on the landscape and character of the area

Regards,

Joanna Archibald
