Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: My objections are that there is no need for clay extraction, the waste site which is the real reason for the application should be on a brownfield site, not a green field site as this is and the devastating impact on these woodlands and wildlife together with the constant HGV traffic on inadequate roads will change the area forever.

Climate change is one of the biggest agendas we have and allowing this would not be doing the right thing for now or the future.
