recycling
Pallinghurst Wood
LOXWOOD

WSCC/030/21 Clay quarry & construction materials recycling, Pallinghurst Wood, LOXWOOD

TRAFFIC

Loxwood road currently has little **HGV** traffic. The plans include 42 daily movements. RSK consultants say 128 is more realistic (a 610% increase) ***“a severe environmental impact on existing road users”***

In places the Loxwood road is only 5.1m - **too narrow** for 2 HGVs to pass safely

Access to Pallinghurst Woods is on a blind bend: ***“a severe highway safety issue”*** RSK consultants

The landowner acknowledges these risks by displaying warning signs that this **access is dangerous** during forestry operations

Site is **4.6 km** from the WSCC A281 Lorry Route Network. **Too far!**
