

WSCC/030/21 Clay quarry & construction materials
recycling, Pallinghurst Wood, LOXWOOD

Local Community Impacts - Safety and Loss of Amenity

DANGEROUS CONFLICT between HGVs and **dog-walkers,**
cyclists & horse riders on footpaths and bridleways.

RISKS

at the layby HGV entrance
where HGVs share footpaths with the public
where HGVs cross a bridleway and footpaths

LOSS OF AMENITY

Noise and smell from HGVs & heavy machinery
Visually intrusive plant & buildings

Proposed **footpath closure** means a 1.3km diversion for walkers for **30 years**

Proposed HGV access is the subject of a **public right of way application** (DMMO 2/21)

A tranquil, heavily used and much loved public space, vital for well-being and good mental health, would be blighted for 30 years!

The application should be REFUSED
