Type of Comment	Objection
Comments	<p>I have reviewed the further documents / comments provided by the applicant. Instead of allaying any concerns it has infect only increased my worries about this proposal.</p> <p>The demand for clay is still unproven and no evidence supplied. Other brick sites mentioned are not relevant. I cannot understand why an application for something which will have such a negative impact on the environment and danger to pedestrians can be considered when there isn't a proven need.</p> <p>The applicant has ignored many species which will be impacted and also where they have completed a survey, they have only done this in a very limited way which does not take into account fully the impact.</p> <p>I am extremely anxious about the increased in traffic and safety for pedestrians, cyclists and horse riders. The additional documents have done nothing to mitigate these concerns and in fact I feel the applicant is underestimating the number of additional lorries needed for the claypits.</p>
