Comments	<input type="text" value="1 Pitch Close, Cranleigh, GU6 8GL"/> Dear Sir/Madam I strongly object to this planning application because I cannot support an application that is in direct opposition of WSCC's Waste and Minerals Policies, in particular WSCC Minerals Policy M5. The policy has been put in place, for a reason - to help protect the community and our environment from development of this sort. I also do not take kindly to the applicant's suggestion that my right to object is not valid.
