Comments	<p>The proposal for a clay pit in the woodland near Loxwood would adversely affect the people, community and nature of the immediate area and the surrounding villages of Loxwood, Tismans Common, Rudgwick and Alfold.</p> <p>The increased level of heavy goods vehicle movements down narrow roads, the damage to wildlife (especially rare visitors such as nightingales) and footpaths that are very well used, these will all affect our lives adversely.</p> <p>Approval of the scheme will be very damaging locally for no obvious gain.</p>
