Comments	<input type="text" value="I object to this application on the grounds of ruining the local biodiversity and scenery. This is an area of important wildlife habitat and, for the local community, a space for recreation, mental health and exercise.
Added to this, the access to the proposed site would cause significant disruption to the community - the roads are
Simply too narrow for such large trucks that would be needed. This application is unthought through and would be a real problem for the community."/>
