Comments	<input type="text" value="This must be the most ridiculous application ever. For a clay pit and re y cling plant in ancient woodland used by dog walkers and horse riders and families will cause noise pollution and light pollution. Not to mention increasing HGV from 32 to 64 on a daily basis down a B road with no pa emends. This will cause numerous accidents as the road is not wide enough for vehicles to pass each other. This could in the end cause a serious accident resulting in injuries and possibly fatalities. It must be stopped. We do not need a clay pit . Period."/>
