Comment Comments

I strongly object to this application. The proposed CMRF is not in keeping with the area and goes against Local Neighbourhood and District plans. This is rural area and this proposal does not treat it as such, both in terms of size and location. The application proposes that the site be on a greenfield area and not on a built up or brownfield area as guidelines advise. The site will have a huge impact on the environment; trees that are known to house native bats are proposed to be felled and the impact on local surrounding wildlife will be significant. The proposal will add unnecessary amounts of traffic and noise through the local area.
