Comments	<p>I object this application due to the lack of infrastructure surrounding the proposed site. The roads leading to the site is not suitable for the number of lorries that will be adding to the traffic. The road is just passable with coaches. The road is popular with cyclists too and given the new Highway Code updated for cyclists - Loxwood Road would not be suitable for cyclist and cars with the additional lorries.</p> <p>I also object because of the environmental affect the site will have too - not just for wildlife but for human life too, the area is a wonderful woodland which offers so much and would have a huge impact on the rural life we love in Loxwood.</p>
