Objection

This is my second objection to the proposed commercial claypit & waste recycling development in Pallinghurst Woods, in response

to the recent further posting of ancillary papers in support of the owner's commercial proposal. Our nearby countryside with peaceful woods for recreation should not be corrupted and exploited for commercial gain. There is doubt that the proposed clay extraction will be of the right quality for building use, making this proposal largely in aid of commercial waste recycling, with the ensuing noise, air and heavy works traffic an unacceptable result for those that live near. To repeat also, the proposed immediate route for all the daily HGV vehicles has largely no pavement provision and there will therefore be a danger to walkers, cyclists and horse & rider movements, all of which enjoy this tranquil recreational area of West Sussex. Once a commercial plant of this nature takes a hold, we have no assurance that its activities may not increase. SAY NO PLEASE TO LOXWOOD CLAYPITS and preserve our local nature, ancient woodland, clean air and tranquillity.
